

Rotary District 5030 District Governor Newsletter

August 2013

August is membership and extension month with emphasis on the importance of both recruitment and retention as the key to sustaining and growing membership.

Rotary's future depends on opening the Rotary doors to others. All of us joined Rotary because someone asked us to be part of a worldwide organization committed to community service. To keep our clubs strong, every Rotarian must share the responsibility of bringing in new members.

Becoming a member of Rotary can change a person's life for good. R.I President Ron Burton has challenged us to propose one member during the coming year. I took the challenge and inducted a new member in my club. So I want to encourage you to do the same and talk to your colleagues, business acquaintances, family, and friends about the great work we do in Rotary and how they can make a difference in our world community by joining Rotary.

In this Rotary year, my challenge to each and every member in our district is to invite and sponsor one member.
