## Words for the Week

Last Friday we had the opportunity to hear Klara Cadova our exchange student talk about her exchange. It was interesting to hear about her homeland and home town of Trutnov. I am amazed at the progress Klara has made since her arrival on August 19. You can see she is gaining confidence and getting comfortable with her new surroundings and making the most out of her exchange experience.

Our club needs to ensure Klara gets the most out of her stay with us and every club member needs to play an active role. Klara will reap many rewards this year and she has the opportunity to serve as an ambassador for her country and community, immerse herself in another culture while adapting to a new way of life, make lifelong friends, not only within our community, but also with other students from around the world, learn about the practices and accomplishments of people in other countries, return home with a greater sense of the world and a deeper understanding of herself and her culture, assume leadership roles shaped by lessons from her experience, build memories that will be with her forever.

Let's make sure Klara's exchange is the best it possibly can be and be a participant in her exchange and not a spectator. Here are just a few ideas that you can do with Klara this year:

- Dinner with your family
- Coffee at a local coffee shop
- Pizza Night Out
- Bend
- Oregon Garden
- Silver Creek Falls
- Rose Festival
- High Desert Museum
- OMSI
- Portland Japanese Garden
- Portland Trail Blazers Game
