

LO Interact Lakeridge Jr. High and the 2018 Teen Tech Team at LOACC

Report of 2/24/2019 Service Project by Ted Ricks

This is the first service project for our newly formed Lakeridge Jr. High 8th graders LO Interact Club.

Lake Oswego Interact volunteers every year to help answer basic questions about newly purchased or underused digital devices at the community center. This is the fourth year that LO Interact answered the call from Ann Adrian, the center director, to offer this "open to the public" workshop from 2:00-4:00.

15 seniors with their Samsung Galaxies and Apple iPhones and one Apple laptop showed up on Saturday, February 24th.

Lots of snacks with four pizzas and drinks available for the Tech Team and seniors.

7 Interact members and 1 Rotarian gave up a couple of hours this Saturday – see below left to right front: Pauline Petersen and Saylee Polinsky, and in the back row: Ainsley Williams, Savannah

Quast, Hope Williams, Elaine Culert, Reagan Yates..

The tasks included how to find and save apps; how to buy and save music tracks; how to take a video and save it to an album; or, how to use email commands.
