

Lake Oswego Interact Club at the LOACC

Activity Report of 11/7/2015 by Ted Ricks

We met with the manager of the Lake Oswego Adult Community Center (LOACC - 505 G Ave, Lake Oswego, OR 97034), Ann Adrian, to brainstorm some ideas of service for the center. Ann and the club were excited about doing something with Lake Oswego seniors in town.

What followed from our discussions was the idea for a Teen Tech Team of LO Interactors to come to the center on November 7, 2015 for two hours and help any interested senior with their digital devices from smart phones to tablets.

On Saturday, November 7, Rotarians Jeremy Davis and Jessica Vogelsang along with Bailey Buchanan, Eric Sasadeusz, Samantha Hoevet, and Kate Fayloga spent the two hours answering questions about making phone calls, taking photos, adding contacts, and accessing email and text messages, as well as, adding applications to their devices.

We received a phone call and two requests for the club to come again next year – thanks to the members and Rotarians that made this possible.
