The Napa County Science Fair is an opportunity to celebrate the exploration and creativity of our 5-8 grade students in the area of science education. Participating students also have the

opportunity to win excellent prizes donated by local businesses and organizations. Families are encouraged to attend.

The Napa County Maker Fair will partner with the Science Fair to provide a variety of hands-on activities for children of all ages who want to explore science. A hot dog lunch will be available for purchase. The Fair is also a wonderful opportunity for younger students to learn more about the Science Fair as future participants.
