## ***District Calendar Events***

He wanted to work in the field of animal agriculture and went to work for Foster Farms, a poultry processor in California, directly out of college. Even though he does not work for Foster Farms currently, his experience with this company gave him the skills and direction that led to his major focus today with respect to work.

In 1995, Mike and his wife, Janice, started Agrecom, Inc. This business focus is solving problems for the food industry. The main aspects of the business are water sanitation for live production facilities, cleaning and sanitation products for food processing plants, and commercial pest control services.

In 2001, they started his second company Chem Fresh, Inc that manufactures a scale inhibiting water treatment chemical that is used in the greenhouse industry and live production facilities water systems throughout the United States. Both businesses are operated out of Merced, CA.

In 2005, a friend handed the best gift he could have given Mike by inviting him to speak at a Rotary Club meeting and then invited him back as a guest. Mike oined the Merced Sunrise Rotary Club in 2006 and was President of the club in 2010/2011. He was Area 8 Assistant Governor in 2011/2012 and then was DistrictMembership Chair from 2012 to 2014.

Mike was asked by District 5220 Governor to take the role of District Chair for Vocational Service. Rotary International is concerned that this area of Service has lost its important role to our organization. Mike is charged with changing that trend in that District and will discuss how important and game changing this area of service can be to Rotary clubs and their communities. He spoke about what vocational services for the Rotary means.
