The District Governor
Of Rotary District 5160
Presents

District 5160's
Leadership Academy

OVERVIEW.....

District 5160

The Leadership Academy

District 5160 has focused on creating opportunities for those interested in leadership positions. As part of that focus, it has developed a Leadership Academy.

The curriculum of the Leadership Academy was developed to train Rotarians whose goals include, but are not limited to future leadership positions in Rotary. However, the instruction has been carefully designed to increase individual leadership skills that are broad based and not just Rotary-specific. Thus, the program's blend of theory and practical application skills helps prepare the Rotarian participants for success in *any* leadership role

More on Enrollment
