With David's guidance, this board had a planning retreat in March and committed to several focuses during this year:

- Meeting with other service clubs during the year – we will meet with Kiwanis on Monday, August 4 at the Trade Center to share the program about the region's football programs.
- The board would like to recruit more committee members so please say yes when you are asked to do a small job.
- The club intends over the next year or two to spread out or "declutter" our schedule so that multiple projects don't fall in the spring.
- They want to make room for "timely" programs so that when you find a really interesting one, there will be space in the schedule.
- The Track Meet has gotten so successful and so large that decisions need to be

made about the scheduling and the use of the facilities.

- Build on our District Grant Successes by doing more and perhaps tapping other financial opportunities to augment our funds. Our grant this year is for the Rock Bridge Mobile Medical Project

David introduced the club to Gary Huang, Rotary International President, whose focus this year is "Light Up Rotary." Just as each of us can light a candle to light a room or a large space, each of us, all 1.2 million of us can do our part and together, our clubs will do big things in our communities and the world.
