## \$10 to End Polio Now!

July 31, 2014

Rotary International's goal of eradicating polio has never been closer, and the cost of one breakfast at our club can move us even nearer to that goal. That's why Rotarians around the world are donating the cost of one meeting meal to the End Polio Now! campaign. With our District Governor Bill Strickland coming to visit this next week, we want to make a good showing of our support for ending Polio.

So, on August 5th, please come to our meeting with \$10.00 to give to the End Polio Now! campaign. You can bring a \$10.00 bill, two fives, ten ones, or even a roll of quarters. But, let's all take this extra step in an effort to end the reign of terror of this horrid disease.

## District Governor Visit

August 5, 2014

On August 5, 2014, we will have our annual visit from the District Governor for our Rotary District, 6910. The 2014-15 District Governor is William "Bill" Strickland.

Governor Strickland is a past president of the Rotary Club of Bartow County where he maintains his membership, and he is a discussion leader for RLI -- Sunshine Division.

Let's all be sure to be present for this annual visit from our District Governor as he lays out his vision for our District as well as what to expect from Rotary this year beyond our local level.

## CASA

August 12, 2014

CASA stands for "Court Appointed Special Advocate." The vision of CASA is to help every abused child in Forsyth County who needs us. The courts and state foster care system are overloaded and sometimes children do not get the help they need. That's where CASA volunteers step in!

CASA volunteers act as a "guardian" to these children who are involved in the Juvenile Court through no fault of their own – they are the victims. This special volunteer will interview the child and all important adults in the child's life. A written, detailed report with recommendations will be given to the judge to help make the best informed decisions about the child's future. The CASA also attends court hearings and other important meetings to speak up on behalf of the child's best interest.

Janet Walden is the Executive Director of CASA, and brings to her position both a lengthy history of helping those who can't help themselves, as well as a fervent desire to see justice for the least among us.
