Meeting of July 22nd

July 11, 2014

Bayne Smith is the District Engineer for GDOT District One, and is the Field Services Director for GDOT as well. Bayne will join us with a program focused on GDOT projects in our area as well as discussion about the funding crisis facing the Department of Transportation. This is a top notch program sure to inspire conversation and debate about the future of transportation funding. Do Not Miss It!

Joint Rotary Social

July 20, 2014

Join with other local clubs (including all five Forsyth County clubs and the Dawson County Rotary Club) for a social evening at "Tacos & Tequilas Mexican Grill" on Marketplace Boulevard in Cumming. The gathering will start at around 5:00 PM and will last until . . . well . . . as long as it lasts. Hope to see you there!

Meeting of July 29th & Board Meeting

July 20, 2014

Major construction is going on all around our area and it's not just at the Courthouse and New Jail. The City of Cumming Recreation and Parks Department has undertaken a multi-million dollar renovation of "City Park" which is where our local "park and rec" culture began. Greg Little, the Department's director will join us to discuss this project as well as other programs and opportunities presented by Cumming Rec and Park.

PLEASE NOTE: We will have a brief Board Meeting after the Club Meeting on the 29th. This will be our only chance to meet before our District Governor's visit on August 8th!
