## Max's Corner

By Joseph P. Vickers

2013-10-27

For those of our generation who do not really comprehend why Facebook exists!

Presently, we are trying to make friends outside of Facebook while applying the same principles.

Every day, we go down the street and tell passersby what we have eaten, how we feel, what we have done the night before, what we will be doing and plan to do. We freely spout our political and religious thoughts without regard to theirs. We give them pictures of our family, our friends, our dogs, our vacations, our gardening and spending time in our pool. We also listen to their conversations and we tell them we love them.

And it works. We already have 3 persons following us: 2 police officers and a psychiatrist.
