The Morrisville Rotary appreciates your continued support through the purchase of the Poinsettias last season. All the proceeds earned assisted wonderful causes in our local community. We helped Life Experiences - enabling adults with disabilities to work; The Caring Place - working to put homeless families in homes; The Miracle League - giving children with illnesses/disabilities a chance to play baseball. We will be selling the Poinsettias again this year. They will be offered in red, pink, marble and white and the cost will remain the same, \$18 for 10" pots. We've appreciated your support in the past and hope that you can support these special needs programs through the Rotary again this year.
